

Buddy Role Cards

Cut along the dashed line. One card face-up on the desk shows whose job is whose. Swap at halfway.

PLACER

the hands of the operation

- Your hands are the only hands on the wires.
- Place ONE wire at a time, exactly where the card says.
- Say the wire out loud as you place it: “DIN to GPIO 7.”
- If you and the CHECKER disagree — stop. The card wins.
- Uploading the sketch is yours too.

SWAP AT HALFWAY — the adult calls it.

CHECKER

the eyes of the operation

- The wiring card lives in YOUR hands, not on the desk.
- Read each line OUT LOUD before the wire goes in.
- Watch the placement, then tick the box — only if it's right.
- You are the only one allowed to say “wait.” Use it.
- Watching the Serial Monitor is yours too.

SWAP AT HALFWAY — the adult calls it.
